

## **Nehemiah - Big View**

---

This “Big View” question sheet is not designed to be answered from a single sermon. Each week we should be able to answer some of these questions - but these questions are designed to help us keep the big view of the book in sight as we continue through it. I encourage you to answer the questions as you can throughout the series.

I will also provide chapter specific question sheets. These will help us gather information to use and apply to our lives, but also help in answering the Big View as well.

1. When did this take place relative to Biblical Timelines?
2. What are the main two issues of the book?
3. What/Are there any secondary issues of the book?
4. How is the Big View issue relevant/applicable to our modern day lives?

5. How can we apply lessons learned throughout the book to our own lives? You can fill this in as we go if needed.
